## Cloud Shared Office Face for Salesforce

### New Feature

#### File Upload from other Applications

You will be able to upload contents to ECM by selecting Face from other applications.

As a result, other files not stored in the gallery as well as documents edited from other applications can be uploaded to Face.

### Enhancement

#### CSO Related List Enhancement

More convenient CSO Related List.

- You will be able to add multiple CSO Related Lists within an object.
- You will be able to associate by specifying the space.
- You will be able to show contents inside a Related Space and also upload contents in a Related Space.

#### Mention posts that specified other user in posting to Chatter.

It is already possible to mention other user in posting to Chatter groups.

## Cloud Shared Office Face for Salesforce

### Bug Fix

#### Fix of broken display

The problem in which the display is sometimes broken when entering long sentences in some models is already fixed.

#### Trail Problem

Issue regarding trail information about application usage registering twice under certain conditions is now fixed.
