Cloud Shared Office WebReport for Salesforce

Bug Fixes

・When a WebReport administrator isn't a system administrator, "Output object" can't be added from "WebReport Settings".

・ECM If you from the relevant list to the form image settings, there is a case in which the image of the object is not displayed.

・After every number Option trial completion, the screen of the legal document will remain in the load

・In the My number option, in legal form output subject selection screen, when you create or edit a narrowing-down condition (view), I get an error that TerminatePopup does not exist

・In the My Number option, when the legal form output, if the employee number of the target user is not set all the legal forms for all user content registered in the personnel master is output
