# Release Notes

Ver. 1.0.2

July 2014 Ed.

## Cloud Shared Office Sync

### Enhancements

#### Space Tree View Manual Update

A button was added to manually update the display of the space tree in Sync Settings tab of Settings screen. Thus, the changes will be reflected in the client immediately after changing the space tree on ECM. Other changes can also be made such as adding sync space.

### Improvements

#### Setting Screen Display Process

By reviewing the display logic of the Setting screen, it was remade to reduce the time to display the Setting screen.

### Bug Fixes

#### Display Version Mismatch after Upgrading

If upgrade was not performed after a higher version than the current version is released but then it performs an upgrade after another higher version is released, the version of the program will be the latest but the version displayed will not be the latest version number. This is now supported.
