## Cloud Shared Office Sync

### Bug Fixes

#### Display after cancelling Setting screen

After changing the contents on the Proxy tab-Bandwidth tab in the Setting screen and cancelling, the problem in which when the setting screen is opened again and changes are not returned is now supported.

#### Synchronization Space Delete

When deleting sync space and the sync space has a name that has the prefix search to the same hierarchy existed, the problem in which it is not deleted is now supported.

#### Moving Contents

When you move a space with role privilege "Can be referred to download the content from the synchronization space" disabled, the problem in which it is not deleted but can be moved is now fixed.

#### Additional space delete after sync

When a parent space is removed at the time a space is added during synchronization, a synchronization error will occur but now it is already fixed.
